

Home Screen

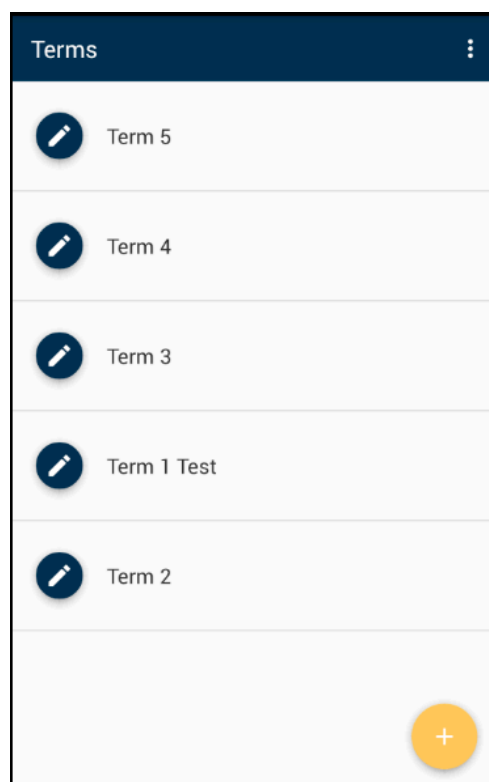

The user starts here and can go to the Terms list by clicking the “TERMS” button. Sample data can be added/deleted by clicking the menu button in the top right corner and clicking “Add sample data” or “Delete all data”.

Terms List

The user can add a new term by clicking the yellow “+” floating action button in the bottom right corner.

The user can edit an existing term by clicking the edit button to the left of each term.

Edit/New Term

Once the user has clicked the new term or edit term button, they will be taken to either the New Term or Edit Term layout where they can edit term information. Once a term is saved and is being edited, courses can then be added.

✓
